Calypso Farm and Ecology Center - Community Shared Agriculture

Thursday, February 25th, 2016 | 12pm to 1pm
Large Conference Room| Lola Tilly - 411 Tanana Loop, UAF

Calypso Farm and Ecology Center is a non-profit, educational farm based in Ester, Alaska. We provide hands-on education to Fairbanks school children and community members through our education programs. Our diversified farm operates as a CSA to feed a number of local families through the growing season. Our mission is to encourage local food production and environmental awareness through hands-on education in natural and farming ecosystems.

At this presentation, learn more about small-scale diversified farming, Community Shared Agriculture (CSA) and how to get involved!
