Winter’s Coming: Get Your Home Ready for Energy Efficiency and Comfort

Tuesday, October 15, 2013
6:00 pm to 7:30 pm
Location: Blue Loon (2999 Parks Highway)

Speaker:

Karl Kassel  with  Thorsten Chlupp
General Manager  Owner
Arctic Sun, LLC  Arctic Sun, LLC

Improving the air-tightness of your home can increase energy efficiency enormously and is a solution that is accessible to every home owner - whether it’s a tube of caulk around a window, some chinking between the logs, or a larger scale project with a contractor.

No discussion of an air-tight home, is complete without discussing ventilation too. Join the experts from Arctic Sun to hear what they’ve learned about ventilation in the Far North over the years, including humidity, health, challenges, and new technologies.
